**Are you looking for a solution to solve your cleaning problem in a proper, a cost-efficient and above all in a environmental responsible way ?**

***Mafo can help you !!***

For more than 40 years (the first washing machine was build in 1968) Mafo has been designing and constructing industrial washing machines, blow-off units and dryers. The extensive experience and expertise gained in all these years is expressed in the wide range of solutions that Mafo has realized in every market sector worldwide. Based on the theory "Sinners Circle" (washing process split up in Time, Temperature, Chemicals en Mechanic force) Mafo develops and builds a line of standard modules and custom build solutions. Whatever the size of your products, quantities or degree of pollution , Mafo can offer you the optimal solution. In this leaflet you will find an overview of our products.
